

## Sleek Style Meets Unparalleled Service

Your customers deserve a best-in-class experience. That's why Parker Technology's 2-way video experience can now be **integrated** into Amano OPUS machines without any additional visible equipment.

This integration allows the Amano OPUS machines to connect directly to Parker's 24/7 call center for excellent customer service with the touch of a button. **No add-on screens necessary.** Use your current Amano OPUS equipment and make the most of the visitor experience.

### Compatibility:

- 05-820 OPUS Integration Kit fits 2000, 2700, 4700 & 4800
- 05-821 OPUS Integration Kit fits 7700 & 7800

## Getting **help** is as easy as...

# 1

Contact Parker Technology to assess your current machines and determine appropriate kit.

# 2

Integration kit 05-820 or 05-821 gets installed into your existing Amano OPUS equipment.

# 3

The "help" button directly connects to the Parker 24/7 Call Center.
